November online class

Flowers

created especially for this doll and available from

Mari Smith Welch

msmithwelch@yahoo.com

Upcoming: \$80 each plus shipping

Paypal: Dana@Danaburton.com

-Dec is Lady Jane (Tudor) - sold out (11/20)

-January is Madam Pompadour - registration open

Greetings, and Welcome to another DANA Creation!

Here are a few notes before we begin!

#1 ... PLEASE READ thru the entire tutorial before you cut a single piece!

Because I design (and take photos) as I go ... some aspects to the doll that show in early photographs, were completely covered and unnecessary at the end.

#2 ... ALWAYS cover doll with plastic baggie before wiggging to protect her clothing.
See photo to the right

#3 ... After a doll kit is closed (usually 24 hours after newsletter), I order the necessary supplies and wait for them to arrive.

At that point - I hand pour/clean/fire/paint and make your kit. Approx shipping time is 4-6 weeks.

If you have any questions I am just an email away! Enjoy ... and HAPPY CREATING!

DANA

TOOLS I use

- Aleene's Original Tacky Glue
- zap a gap - gel super glue
- zip kicker (accelerant for above)
- long quilting pins
- needle and matching thread
- long needle nose tweezers
- wire clippers
- Q tips
- corsage pins
- plant mister
(small travel mister from Walmart)
- doll stands
- assembly materials
(such as armature wire, white florist tape, cotton balls)
- ruler
- scissors (small sharp and long)
- zig zag scissors for decorative work
- hair dryer (small travel works wonderful)
- hair straightener/flat iron
- various size knitting needles (size 00 - 8)

Class

This is a very basic wiggling tutorial created as a visual reference for the November 30th, 2020 online class.

During the verbal class, you simply read the text as I type, ask any questions, and learn more gems of wisdom as they pop out of my head.

Did I mention there are GAMES and prizes? How to join in ...

#1 ... Click to the minidollU (classroom) on my website danaburton.com/chatroom

#2 ... Log in with your profile for my website, or if you have forgotten, simply click the *guest* button for instant access to classroom.

#3 ... For those that are nervous - feel free to pop into the chatroom/classroom anytime to practice.

#4 ... I have put a countdown timer to class, as well as a (CST) DANA clock so you always know what time to come to class, no matter where you are in the world.

#5 ... BE SURE to have this tutorial printed out, or easy access as it is the basis for the questions I ask during class for the contest prizes!

#6 ... Our own MOONYEEN Moller does amazing class notes (when available) and these will be posted on my website when finished.

JANUARY 2021

I will be writing my free wiggling blog tutorials under the WIGGING.Club tab on my website.

so if you are missing my posts online, in Facebook or the MDL group ... you can still check in and see what is happening on the blog.

Getting started ...

1. **Stabilize your doll** ... pin her to the chair, couch or draping board if she is on a doll stand.

If you are wiggig just a doll head, then use a 3rd hand device to hold her steady while wiggig.

2. **Cut the end off** the plastic baggie your kit came in, and slide it over her head to protect her clothing while dressing.

3. **GLUE a realistic hairline** on the doll's head with Aleene's original Tacky Glue and let the glue get tacky.

4. **Condition your viscose**, and lay a long strip across her head (direction of nose to neck). Gently press hair into the glue and let dry.

WHEN glue is dry, lightly mist hair again so you keep it smooth ... and flip the hair back over her head.

5. **Gather all the hair** into a low ponytail and tie with thread to secure.

6. **Spray a light coat of hairspray** on the doll's hair to avoid frizzies. I like AVEDA air control (its \$30 a can - but WORTH IT).

BRAIDS ...

1. Braid viscose (see photos below).
2. Wrap them around a knitting needle, to the size of braid *bun* you wish to have on her head.
3. I cut off excess, overlap the edges and put a dot of glue to get the braid length to stay on the rod.
4. Lastly take your flat iron, and clamp on viscose to get rid of any frizzies. Slide bun off the knitting needle when cool.
5. Glue the braid bun on each side of her head.

Notice pin holding the hair knot to my leg while I braid.

(DO NOT BE JEALOUS of my awesome Jammies used during filming <G>) ... 2020 clothing <G>.

DMC ...

1. Braid several 18" sections of DMC floss to match the doll's hair color.
2. Tuck one end (glue) under a braid bun, and to the middle of (back of her head). Let dry.
3. Loop and glue the remaining end under same braid bun. Cut off extra.
4. Now take a Q-tip and dab it into dark brown chalk. Apply on DMC floss braids. This will give the braids a bit more *matching* color and still have some highlights.

Decoration

1. Find jewelry findings, and cut apart to decorate as desired.
2. Add flowers, no hole beads etc.

Photos on the upcoming page show how I decorated my doll (close-ups).

Most of the items I purchased on clearance at Hobby Lobby or found in one of my tubs in the studio from a long ago purchase.

EXTRA

Well ladies and gents! That should keep you busy creating until the next class!

Here are some added educational items that might be of interest!

Piece Cutting ebook.

This 16 page color pdf instant download showcases the Mannequin pattern and subsequent lace decoration as well as the twins. If you are new to piece cutting lace ... this is the perfect reference and an instant download.
